TECHNICAL CORRIGENDUM 1

*Technologies de l'information — Langages de traitement — Sémantique de présentation de documents et langage
de spécifications (DSSSL)*

RECTIFICATIF TECHNIQUE 1

Technical Corrigendum 1 to International Standard ISO/IEC 10179:1996 was prepared by Joint Technical Committee ISO/IEC JTC 1, *Information technology*, Subcommittee SC 34, *Document description and processing languages*.

This Technical Corrigendum corrects the errors in ISO/IEC 10179:1996. Some extensions, for example additional flow object classes, additional formatting area, and alternative syntax, are dealt with in ISO/IEC 10179:1996/Amd.1 (to be published).

Page 6, definition 4.35

Add the following note:

NOTE 1.5 A subtree is a node-list of the node which will be generated by applying the following procedure to the node-list that contains only the root node: make a union of the node-list and their children without duplicates. When the output of the procedure is the same as the input, that is the node-list requested.
